

# SMALL BUSINESS ENERGY SAVER PROGRAM

## TOP PROGRAM ENERGY UPGRADES:

Heat pump HWS	$\$2,000 - \$1,700 = \$300$ <small>Avg. install cost    Price discount    Net install cost</small>	<b>\$2,745 SAVING</b> <small>potential over 5 years</small>	<small>Paid off in<sup>^</sup>:</small> <b>6</b> <small>months</small>	<b>18 tCO2e*</b> <small>Ghg savings over 10 years</small>	<b>6</b> CARS OFF THE ROAD
Room Air-conditioner	$\$3,125 - \$2,425 = \$700$ <small>Avg. install cost    Price discount    Net install cost</small>	<b>\$1,250 SAVING</b> <small>potential over 5 years</small>	<small>Paid off in<sup>^</sup>:</small> <b>2.8</b> <small>years</small>	<b>8 tCO2e*</b> <small>Ghg savings over 10 years</small>	<b>3</b> CARS OFF THE ROAD
Two Door Refrigerator	$\$1,200 - \$1,020 = \$180$ <small>Avg. install cost    Price discount    Net install cost</small>	<b>\$85 SAVING</b> <small>potential over 5 years</small>	<small>Paid off in<sup>^</sup>:</small> <b>9</b> <small>years</small>	<b>1 tCO2e*</b> <small>Ghg savings over 10 years</small>	<b>0</b> CARS OFF THE ROAD
Refrigerated Display Cabinet (1-2m <sup>2</sup> size)	$\$4,945 - \$3,003 = \$1,942$ <small>Avg. install cost    Price discount    Net install cost</small>	<b>\$4,410 SAVING</b> <small>potential over 5 years</small>	<small>Paid off in<sup>^</sup>:</small> <b>2.2</b> <small>years</small>	<b>29 tCO2e*</b> <small>Ghg savings over 10 years</small>	<b>10</b> CARS OFF THE ROAD
Refrigeration and ventilation fan motors	$\$1,000 - \$850 = \$150$ <small>Avg. install cost    Price discount    Net install cost</small>	<b>\$2,500 SAVING</b> <small>potential over 5 years</small>	<small>Paid off in<sup>^</sup>:</small> <b>3</b> <small>months</small>	<b>16 tCO2e*</b> <small>Ghg savings over 10 years</small>	<b>5</b> CARS OFF THE ROAD

**Disclaimer:** Annual energy savings estimations are based on modelled energy savings and assumed retail energy rates. Actual savings will vary based on actual usage and retail rates and are indicative only. The 'Price discount' includes the VEECs discount and the program bonus. Where appliances are not decommissioned, savings figures are estimated based on the difference between a new appliance and Minimum Energy Performance Standards or market average data. The average installation prices are estimates only and may vary considerably depending on the equipment installed. Accredited Providers will be able to quote actual installation prices and overall price discount.

## HOW TO GET INVOLVED AS A LOCAL TRADESPERSON:

Contact the Small Business Energy Saver program local program expert who is supporting the roll out of the program.
