|  |  |  |  |
| Transect contains no visible litter. | Transect contains a small amount of visible litter. | Transect contains lots of litter across the entire transect. | Transect contains very high amount of litter and may include illegal dumping. |

AusLM minimum litter item size guide

1. Print this page using print settings to print the 'actual size'
2. Measure the circle diameter and check it is 2.5cm. Make any small adjustments required to cut out the circle so that the diameter is 2.5cm.
3. Laminate the circle and punch a hole where marked.
4. Thread the circle through some string/lanyard or necklace, wrist band so that it can be worn and viewed when required whilst surveying litter.
